

Workshop

Carbon Reduction Technologies

27th-29th June 2012

Gliwice, Poland

The workshop offers to young researches both lectures and hand-on training sessions on carbon reduction technologies: biomass and biofuels combustion, oxy-combustion, system analysis and techno economic assessment, renewable energy project analysis

Lecturers affiliated with:

CIRCE, University of Zaragoza, Spain

Clausthal University of Technology, Germany

Danish Technological Institute, Denmark

Eindhoven University of Technology, The Netherlands

Institute of Thermal Technology, Gliwice, Poland

Polish Foundation for Energy Efficiency, Poland

University of Leeds, UK
